The following details of the Port of Neverossisk refer to corresponding numbers on attached sketch:

- 25X1X
1. [REDACTED]
 2. Small shipyard with wharf for small ships and 70-80 ton landing barge.
 3. A wooden pier was here formerly, but has been removed.
 4. Military barracks, in enclosure, with guard at entrance.
 5. Building with red gable roof having 2 antennas; located 300-400 meters inland from west pier; probably a radio station.
 6. Unpaved area, containing rigging, between wooden palisade and sea.
 7. Beyond the palisade there is a barracks and a wood depot.
 8. Signal station already mentioned by source in previous report.
 9. Wall dividing 2 branch tracks that connect with main rail line.
 10. Large 4-story building; use unknown.
 11. Small Navy barracks with wall and gate facing dock.
 12. Stream emptying into corner of dock; crossed by rail and road bridges.
 13. Warehouse, apparently used as garage for nearby military units.
 14. Two branch tracks leading from main tracks to the road and to the petroleum pier respectively.
 15. Conveyor system (contained in gable roof shelter on iron framework) for transporting grain from silos (No. 16) north of the railroad station to grain-loading pier; this construction is about 15 meters high at the pier and about one kilometer in length.
 16. Large red building used as grain silo.
 17. Large building; 4 or 5 stories; radio antenna on roof. Soldiers armed with automatic rifles were seen entering building from truck.
 18. Building with 2 chimneys. This might be a cement plant.
